

STELTRONIC NEWS

UPGRADE YOUR FRONT DESK

MICROSOFT WINDOWS XP IS DEAD

After 15 years, support for Windows XP ended on April 8, 2014, and there will be no more security updates or technical support for the Windows XP operating system from Microsoft®. It is very important that customers migrate to a modern operating system such as Windows 10 Professional. Customers moving to a modern operating system will benefit from dramatically enhanced security, higher user productivity, and a lower total cost of ownership through improved management capabilities.

WHY WOULD YOU PAY SO MUCH?

The rumor on the street has found that competitors are charging outrageous fees to replace the front desk system at your bowling center. If the front desk system at the bowling center has Windows XP and you want to upgrade your front desk operating system to something like Windows 10, the competitors are quoting these upgrades into the tens of thousands of dollars. To make matters worse, they are informing you the current scoring software must be upgraded because it has to be compatible with the new operating system.

WHAT ARE THE OPTIONS?

Steltronic® has an alternative option for you, and that is to replace your current front desk Microsoft® operating system into Windows 10 Professional for the low price of \$2,485.00. For larger centers

WINDOWS XP END OF LIFE

that require a dedicated server, contact us for the details as each bowling center configuration can vary. *Additional software and hardware may be required based on your bowling center software for scoring.*

CREDIT CARD PCI COMPLIANCY

The banking industry is also heavily involved with keeping your credit card transactions safe for bowling centers processing credit cards with attached hardware to the front desk systems. One very important factor is that for your business to be completely PCI compliant while processing credit cards, the front desk system must be supported by Microsoft® leaving you no option but to

upgrade your current front desk system. For many security and liability reasons, it makes good sense to upgrade your front desk system.

FREE FOR LIFE

Since 1980, Steltronic remains the sole company offering free technical support and free Steltronic software updates for the life of your system.
