# IN THE INTEREST OF INTEREST

## INTEREST OR ZERO INTEREST?

With Steltronic as your leader in the industry of automatic scoring, the question of should you pay it off now, or pay later are flexible options with Steltronic automatic scoring. Some proprietors prefer that with such a large investment into their business, one might say they want to pay as little as possible for the total purchase, and others might say I want the new scoring system, but I do not have the money to pay it off at delivery. If you pay it off upon delivery, you're at the advantage of paying ZERO interest, while others might have to make a few monthly payments because the current scoring system is no longer supported and it needs to be replaced.

## TAKE POSSESSION TODAY?

When you have the need for a new scoring system, or want to upgrade your existing system, Steltronic can help you receive new scoring today, and pay for it later with low monthly payments. With several options available to the proprietor, you can enjoy the freedom knowing the system you own is under a two-year warranty with no more hidden costs like those license renewals the other competitors are not telling you about. Imagine that feeling of the brand new scoring system that does more than just keep score on the lanes, it's managing your entire business from the front end all the way back to the pinsetters.

## BE COMPETITIVE

When your closest competitor has the latest and greatest scoring system, you want that same feeling that you are providing the best for your customer experience. Show your customers the best 3-D patented animated graphics, additional games during the bowling game to keep them interested, and knowing your purchase was made from a company in business since 1980.

## TAKE ADVANTAGE OF THE IRS

One of the best things you can do for your business is to take advantage of section 179 of the IRS code for your tax return. With your investment in automat-

ic scoring today, you can write off the purchase on your tax return to save even more money for your business. It's really one of those very good deals the IRS has for your business so why not take the full write off? For further information on financing your scoring purchase, give us a call.
