

STELTRONIC SURPASSES 24,200 LANES OF AUTOMATIC SCORING INSTALLATIONS

Steltronic testimonials say it all the time: *“Simply the easiest and most complete bowling center management system for my center.”* When bowling centers think about automatic scoring, sometimes the decision is based on the bottom line, which is price. While this may work for some, the actual facts are “you get what you pay for”, and remember to compare apples to apples when making this big decision.

- How much is technical support?
- How long is my warranty coverage?
- How much are the software upgrades going to cost?
- Will my automatic scoring equipment be obsolete in a few years with no help?
- What if I lease? At the end of a leased scoring system, beware of the residual payment because it's no different than leasing a car or an apartment! Lease a car for 5 years, and at the end of the term, all you have for your money are lease receipts, and nothing to drive, or a large residual payment to pay or refinance/lease again!

FEATURES INCLUDED WITH FOCUS SCORING SYSTEMS

The Focus automatic scoring system is loaded with features and you don't have to pay for them as extra add-ons. This is one major advantage Steltronic® has compared to the competition because with Focus, it's included free!

- Automatic bumper controls
- Automatic foul light controls
- Pinsetter black light controls
- Lockers management
- Laser tag management
- Membership module
- Inventory Module
- Gift card management
- Credit card processing
- Pool tables and other timed games

- Tournament module with integrations for the USBC and CDE leagues/tournaments
- POS System (with 3rd party integrations)
- Birthday party and advanced bookings
- Online bookings
- Social media posting of your scores
- And many more...

BOWLER CONSOLES

When it comes to your customers, you have many choices in the way the players will interact with the scoring system. With the traditional keypads, or high definition touch screens, the players will enjoy the simplification we have placed into all of these products.

Sharing scores to social media websites with the mobile phone app or touch screens is just one of the many ways to inform friends and family they are having a great time at your bowling center.

Space saver keypad console for two lanes

Keypad console for individual lanes

Glow in the dark!

Dual Touch Screen for a pair of lanes

Single touch screen for one or two lanes

Bowling Ball Storage Table
